

Catriona Jamieson - UCSD | CIRM Spotlight on Genomics

This seminar, presented to the California Institute for Regenerative Medicine governing board on January 17th, 2012, provides a glimpse into a future of personalized medicine in which genomics, the study of genes and their function, is applied to pinpoint specific treatments for patients. Speakers include Catriona Jamieson, director for stem cell research at the UCSD Moores Cancer Center, and Sandra Dillon, a clinical trial participant.
